## ANNE'S ARMY NEWSLETTER

### A MESSAGE FROM THE BOARD

We are pleased to announce the creation of the Anne M. Wolf Fund for Breast Cancer Research at the Ohio State University (OSU) Comprehensive Cancer Center-Arthur G. James Cancer Center and Richard J. Solove Research Institute. The Fund was established by the Foundation in 2011 and over the past year the Foundation has contributed \$52,000. Dr. Charles Shapiro, MD, Professor of Medicine and the Director of the Breast Cancer Program, directs the Fund. We believe that the research that Dr. Shapiro and his team of scientists have initiated for Triple Negative Breast Cancer will be instrumental in finding a cure that will achieve one of Anne's most critical goals: protecting her daughter, sisters, family, friends, and all women from this disease.

The Anne M. Wolf Breast Cancer Foundation is a 501(c) (3) nonprofit organization; its mission is to raise monies to support Triple Negative Breast Cancer research. Approximately 40,000 women will die of breast cancer in the U.S. this year. Excluding skin cancer, breast cancer is the most frequently diagnosed cancer among U.S. women. Triple Negative Breast Cancer (of which Anne (Gortner) Wolf was diagnosed) is very aggressive, generally affects young women, and often does not respond to chemotherapy or other treatments. Thank you for your support of this important cause.

**THE ANNE M. WOLF FUND FOR BREAST CANCER RESEARCH** is devoted to advancing research in Triple Negative Breast Cancer at the OSU Comprehensive Cancer Center-Arthur G. James Cancer Center and Richard J. Solove Research Institute. The Anne Wolf Fund will support research in three areas: 1) discovering new drugs for Triple Negative Breast Cancer; 2) testing these new drugs in clinical trials; and 3) understanding the biology or what makes triple negative breast cancers resistant to most chemotherapies. In loving memory  
~Anne M. Wolf~

## ANAGRAM ~ ANNE MARY/ANNE'S ARMY

Did you know that "Anne's Army" is a near perfect anagram of "Anne Mary"? An anagram is a type of word play, the result of arranging the letters of a word or phrase to produce a new word or phrase. In some anagrams the newly-created word reflects on the original word or subject in a witty or mystical way.

During her four-month battle with Triple Negative Breast Cancer (TNBC), Anne Mary Wolf named the host of people who were to support her with prayers, well wishes, and kind gestures, "Anne's Army." Anne appreciated and valued everyone's help. In like manner today, the Anne M. Wolf Foundation is most grateful for your support in efforts to find a cure for TNBC.

### ANNE'S ARMY RAISING AWARENESS

Although raising funds for research is our primary focus, we also strive to raise breast cancer awareness in our community. The Anne M. Wolf Foundation was highlighted at Wooster Community Hospital's Breast Cancer Awareness Days event on October 19, 2012. This event, organized by the Wooster Community Hospital's Breast Cancer Awareness Committee, provides the opportunity to teach the public and healthcare professionals about breast cancer. Josh Wolf shared Anne's story and explained the efforts involved in creating The Anne M. Wolf Breast Cancer Foundation. Through sharing Anne's story, we hope to inspire others to join in the battle to conquer Triple Negative Breast Cancer.

### DR. MICHAEL BAUS, DDS, DENTAL OFFICE PROMOTION

In October 2012, 10 percent of proceeds from all cleaning procedures at Dr. Michael Baus' dental office in Wooster will go toward education and breast cancer awareness programs at Wooster Community Hospital and to the Anne M. Wolf Foundation. Thank you, Dr. Baus, staff, and patients for your generous support.
